Special Edition 2019

RALLY FOR SOMERSET!!

Somerset Residents:

Please consider joining Senator Ortt, myself and many others for a Community Rally supporting The Empire State Data Hub project!

Wednesday August 7 at 2:00pm at the Babcock House Museum (7449 Lake Road)

Governor Andrew Cuomo has touted "killing coal" in New York by ordering the last two coal plants to be out of business by 12/2020. Recently, concerning the state's new energy policy, the The Buffalo News wrote, "There will be losers....the state's job in this will be to help people caught in the transition – workers at a coal-fired plant...as well as the communities and school districts.

Somerset is a community on the front lines of energy transition and Governor Andrew Cuomo and the state has a responsibility to not just chalk up Somerset as a loser in their own backyard! The power plant owners have proposed a plan to transition with The Empire State Data Hub project that will be a Win Win!! Please consider coming out to join us at the rally to send this message to Albany and NYC and to call for action to get this project approved!!

I hope to see you there!

Sincerely,

Daniel M. Engert
