COMMUNICATIONS: Charter Communications notified us of a couple of new channels, and a price increase. Also, we received a link to sign up to volunteer for the MS Bike Ride.

BIODIGESTER UPDATE:

Councilman Riggi stated that we (Town of Yates and Town of Somerset) did a rough feasibility study to determine how many heads of cattle and how much manure each farmer has. There are 2 consultants working with us and original estimates showed that it would be profitable. It became evident that we needed more information, such as where gas lines are, where 3-phase is, etc. We want to make sure that this will benefit everyone. Bi-products from this are methane, a liquid, and a gray flake. The Town of Yates moved forward with a detailed feasibility study. We expect to have answers in September or October. Discussion ensued regarding this being the final study, grant writing, a consultant agreement with Phil Lusk of Martin Construction.

PRIVILEGE OF THE FLOOR

JIM HOFFMAN reviewed all seven volumes of the Somerset Solar package. Jim said that here is a lot of information, but not indexed well so you have to go through a lot of it to find what you are looking for.

Jim stated that our Comprehensive Plan is to preserve the rural character of the Town. Jim wants the Town to take the position that all development should take place north of Route 18. Jim also wants the landfill used. Some points that Jim found in the application:

- the project will not follow our setbacks
- the view from the Babcock House will be severely impacted
- reflections occur from any smooth, flat surface, whether or not they have reflective coatings

In addition, Jim asked why did we sign an NDA? What benefit is there to have the information if we cannot do anything with it?

BETTY WOLANYK stated that non-glare coatings deteriorate and release PFA's into the environment. There is concern of well contamination. Betty asked where we are with the noise from Mariner Data.

Supervisor Dewart said that the 2nd building has been running for a month, they put some type of diffuser up to knock the noise down, and they are having a 2nd study done.

Betty stated that now that the windows are open, the noise can be heard all night long.

Councilman Hotaling said that State Law says that anything over 90 decibels is bad. So if anyone gets a reading of 90, they can go to the State.

Betty has served on panels that evaluated grant applications as an employee of the USDA, and offered to assist with reviewing the Biodigester grant application.

On a motion of Councilman Hotaling, seconded by Councilwoman Jansen, the meeting adjourned at 6:36 P.M. subject to the Call of the Clerk. Carried unanimously.

Tracy L. Carmer, RMC
Town Clerk
